

비닐하우스 전문기업 『주식회사 지성』

# JISUNG CO., LTD.

Following the business idea of "value creation for advanced agriculture" Jisung Industrial Co. Ltd was founded in 1990 as a greenhouse affiliated materials producer.

Ever since, it has invented numerous own products starting with the "gearing clamp" and "1-2W model green house" which were acknowledged as Korea's standard.

Jisung will keep on endeavoring to improve productivity of facility agriculture and inventing better products for more convenient agriculture.

Furthermore, it will do its best to protect the environment and help people to maintain healthy life.

*A leader of scientific farming*
